

# Microinvest eMenu Pro – Your Fashionable Restaurant

# Hi Microinvest

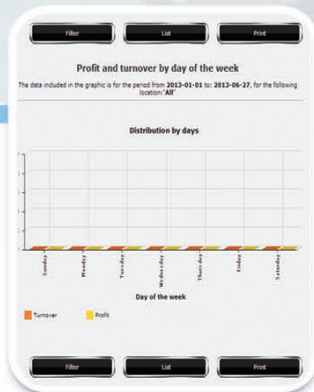

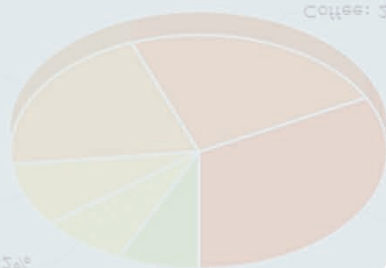

With **Microinvest eMenu Pro** company's turnover increased by several times.

Graphical analysis of data, with the use of the free module **eStatistics Pro**, gives an opportunity to look at the locations, merchandise, operations and operators overall.

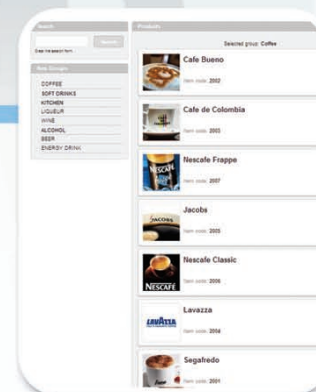

My web-site always contains up-to-date information about goods and services offered, which is supported automatically through the usage of the free module **eCatalog Pro**.

By using the free module **Digital Board**, I have received an additional tool for the advertisement of goods and services offered at my establishment.

Works stable with **Windows, Linux, Android, iOS** and other OS. Supports all the devices of the **iPad and iPhone** product lines, **HTC tablets**, etc.

Remote access and full compatibility with mobile phones and tablets.

Scan the QR code to access the demo version (password 1)

Increase the traffic to your web site! The goods from the digital board are indexed by the search engines.
