

Microinvest management software streamlines every aspect of operations and addresses every segment of the industry – from quick service to fine dining.

Microinvest Warehouse Pro is the software which provides tools to measure operations and make decisions in real-time.

This is My Restaurant!
The service is quick, the food is delicious, and the interior is relaxing. It seems that the manager knows how to do it!

The easiest Electronic Menu I have ever used is **Microinvest eMenu Pro**.

What do I need for "My Restaurant"?

- 1 **Microinvest Warehouse Pro** (restaurant's back-office);
- 1 **Microinvest Warehouse Pro Light Restaurant** (restaurant's front-office);
- 1 **Microinvest eMenu Pro** (free features **Digital Board** and **eStatistics Pro**);
- 1 **Microinvest Restaurant for Android OS**
- 1 **Microinvest Waiter Assistant for Android OS**
- 1 **Microinvest Archi Pro**
- 1 **Microinvest Order Assistant**
- Database Access, MS SQL or My SQL;
- 1 Hardware license.

Whether you are running a small family restaurant or fine dining restaurant, **Microinvest** software solution will make its managing so much easier, you can deliver a perfect service to your customers and profit as well from solutions to improve your operational performances. **Microinvest** will have you operating at peak efficiency, turning tables faster and encouraging your customers to come back again and again by helping your staff meet your customers' demands, from ordinary orders to extraordinary requests.
