I like it!
This is the software solution for my coffee shop.
Now I know everything.

MY CAFÉ

Amazing! Look at the numerous reports, functionalities and everything is so easy with **Microinvest Warehouse Pro**.

Microinvest Warehouse Pro delivers real-time analytics and actionable information via a PC, smartphone or tablet.

I'm surprised!
That was very quick, I just made my order.

The electronic menu is my favorite. It saves me so much time just with few clicks and the drinks are sent to the bar.

One view at the monitor on the wall and I know what to do next. No papers in my kitchen anymore.

What do I need for "My Café"?

- 1 **Microinvest Warehouse Pro** (cafe's back-office);
- 1 **Microinvest Warehouse Pro Light Restaurant** (cafe's front-office);
- 1 **Microinvest eMenu** (electronic menu);
- 1 **Microinvest Restaurant for Android OS**;
- 1 **Microinvest Archi Pro**;
- Database Access, MS SQL or My SQL;
- 1 Hardware license.

Take advantage of the full range of functionality which **Microinvest** software solution offers you – manage the tables in the hall, receive an order from a waiter through a mobile device that sends the order to the kitchen and bar, set up discounts and promotions, establish different access levels and reduce the number of allowed operations depending on user, upload images of goods and services to make them easily distinguishable and user-friendly, and group products according to your needs and preferences. The system operates at extremely high loads, while at the same time providing a high level of protection.

Download the applications now from www.en.microinvest.net. The solution is compatible with Windows OS as well as Android OS.
Explore the settings and add benefits to your business with **Microinvest** software solutions!
