

Microinvest

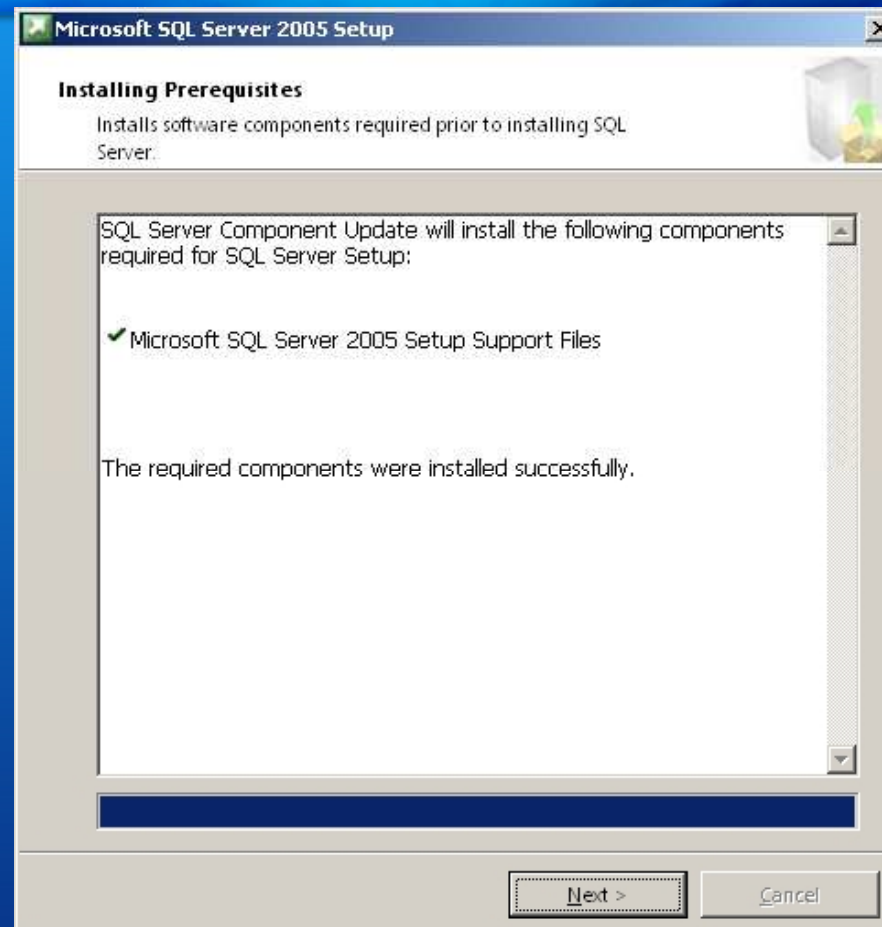

Installation of MS SQL 2005 Express server
(Microsoft SQL Server 2005 Express Edition)

Installation - Step 1

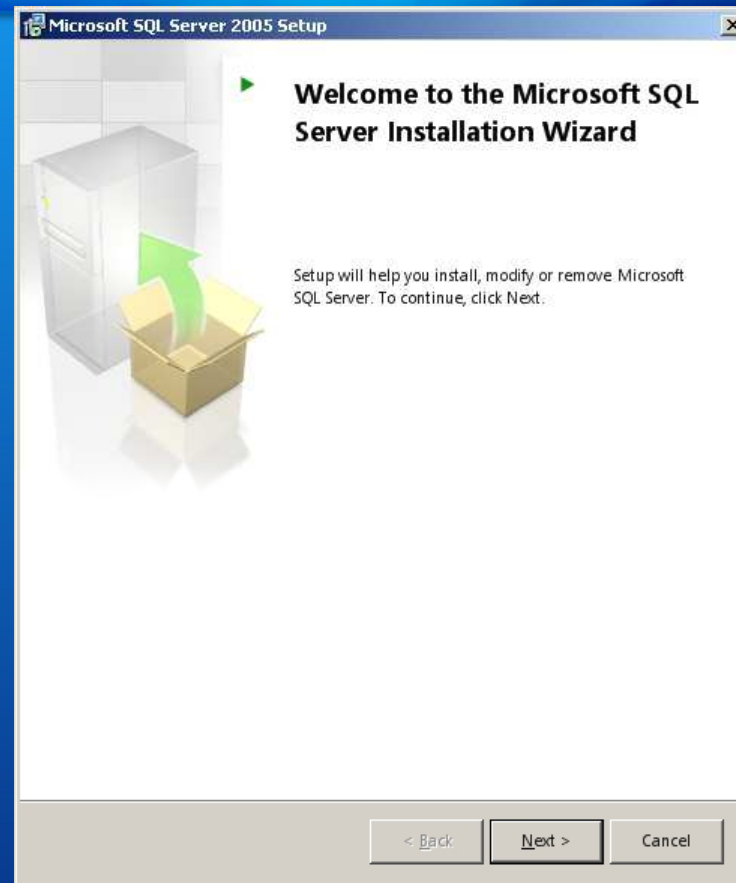

Start the installation file and accept the license agreement

Installation - Step 2

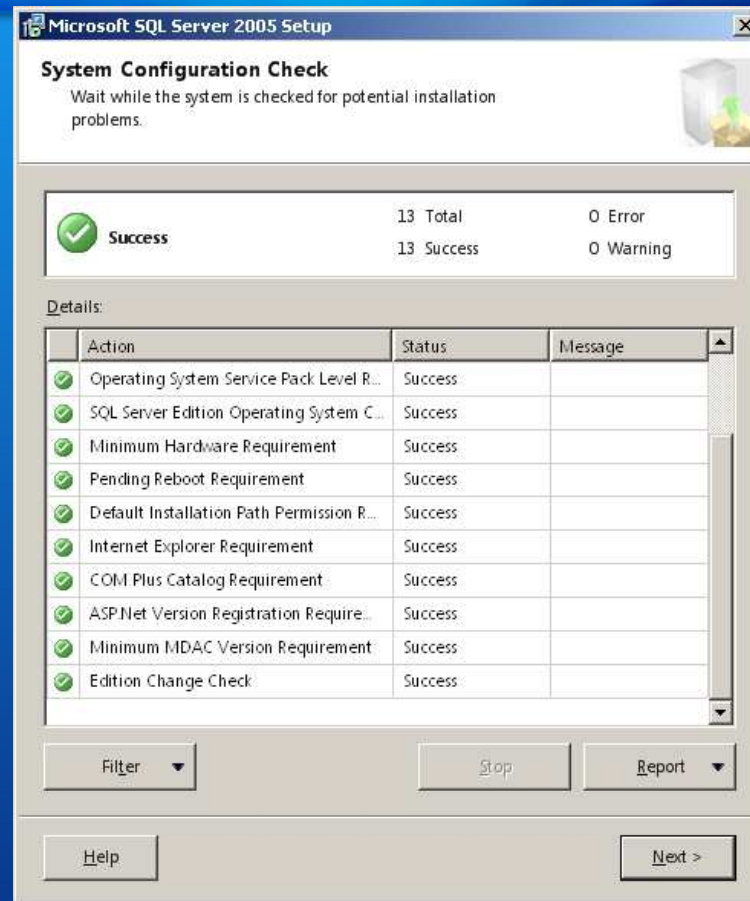

Confirm the installation of prerequisite applications

Installation - Step 3

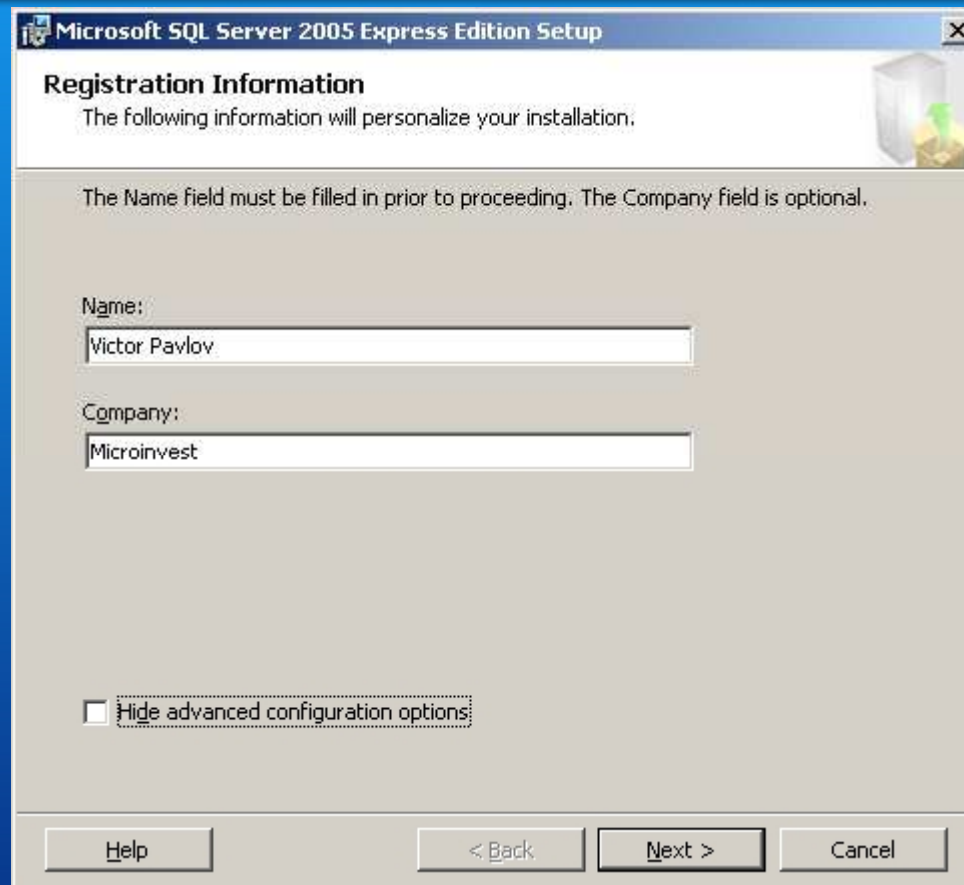

Starting the basic installation

Installation - Step 4

Check of the system configuration

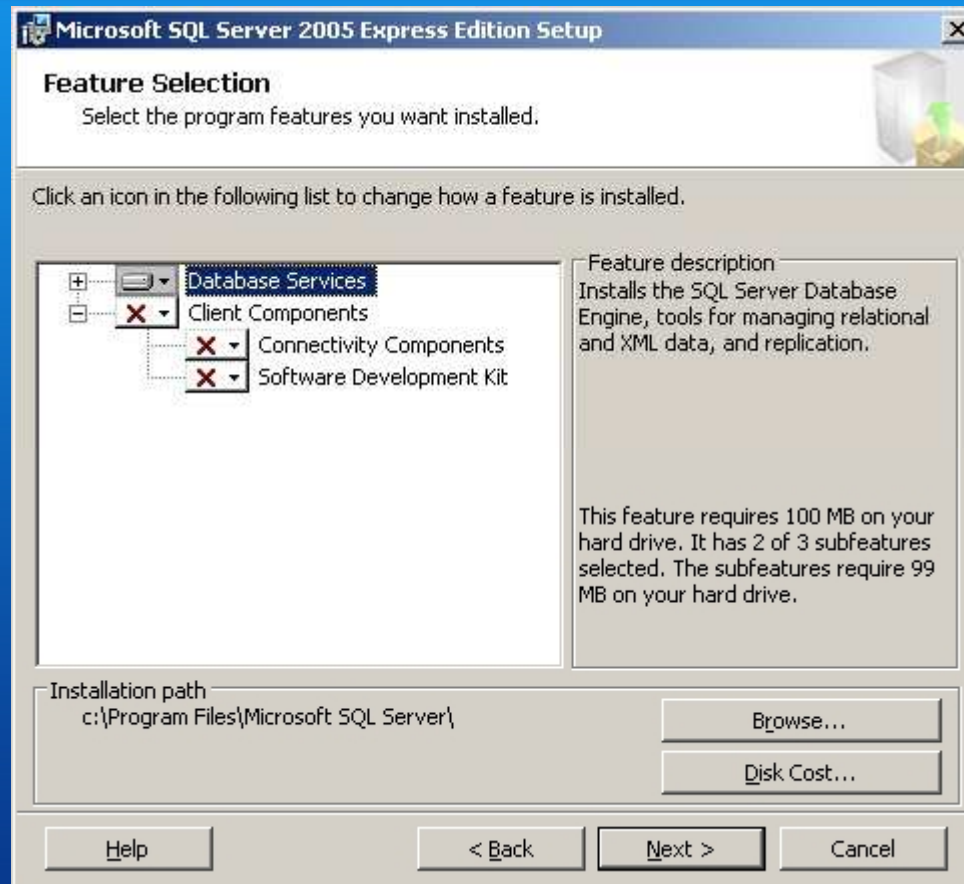

Installation - Step 5

The screenshot shows the 'Microsoft SQL Server 2005 Express Edition Setup' dialog box. The title bar includes the Microsoft logo and the text 'Microsoft SQL Server 2005 Express Edition Setup'. The main content area is titled 'Registration Information' and contains the text: 'The following information will personalize your installation:'. Below this, a note states: 'The Name field must be filled in prior to proceeding; The Company field is optional.' There are two text input fields: 'Name:' with the value 'Victor Pavlov' and 'Company:' with the value 'Microinvest'. At the bottom, there is a checkbox labeled 'Hide advanced configuration options' which is currently unchecked. The dialog box has a standard Windows-style footer with buttons for 'Help', '< Back', 'Next >', and 'Cancel'.

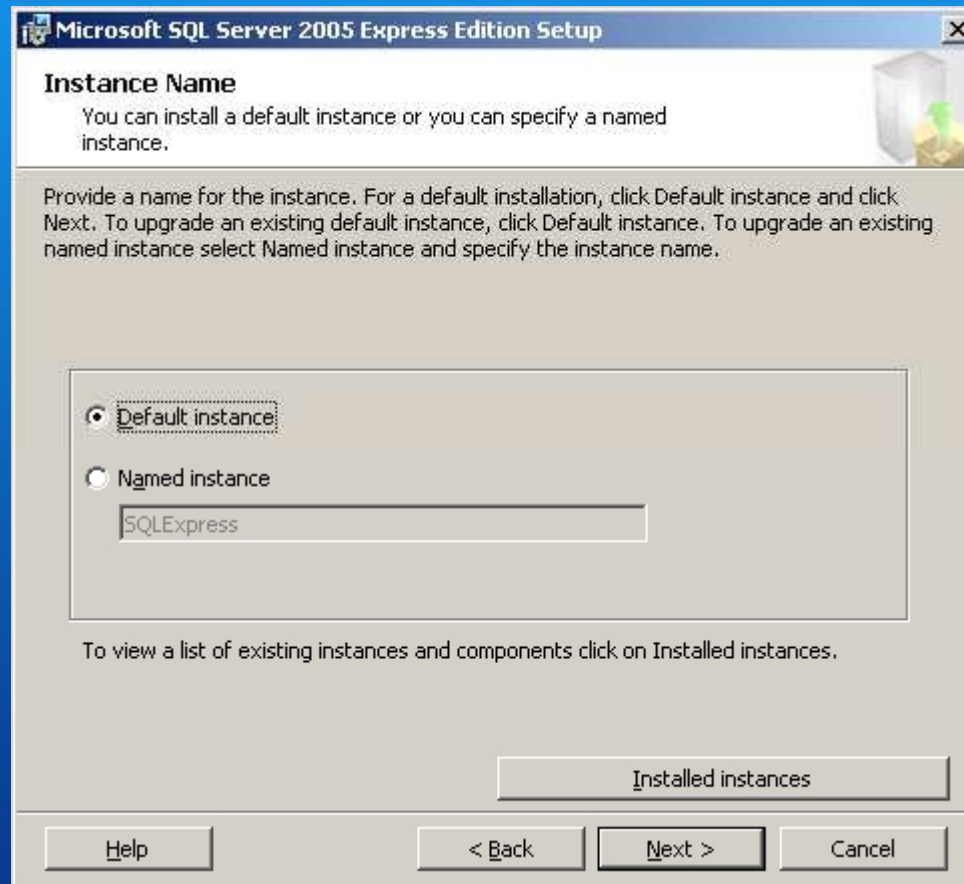

Unmark "Hide advanced configuration options"

Installation - Step 6

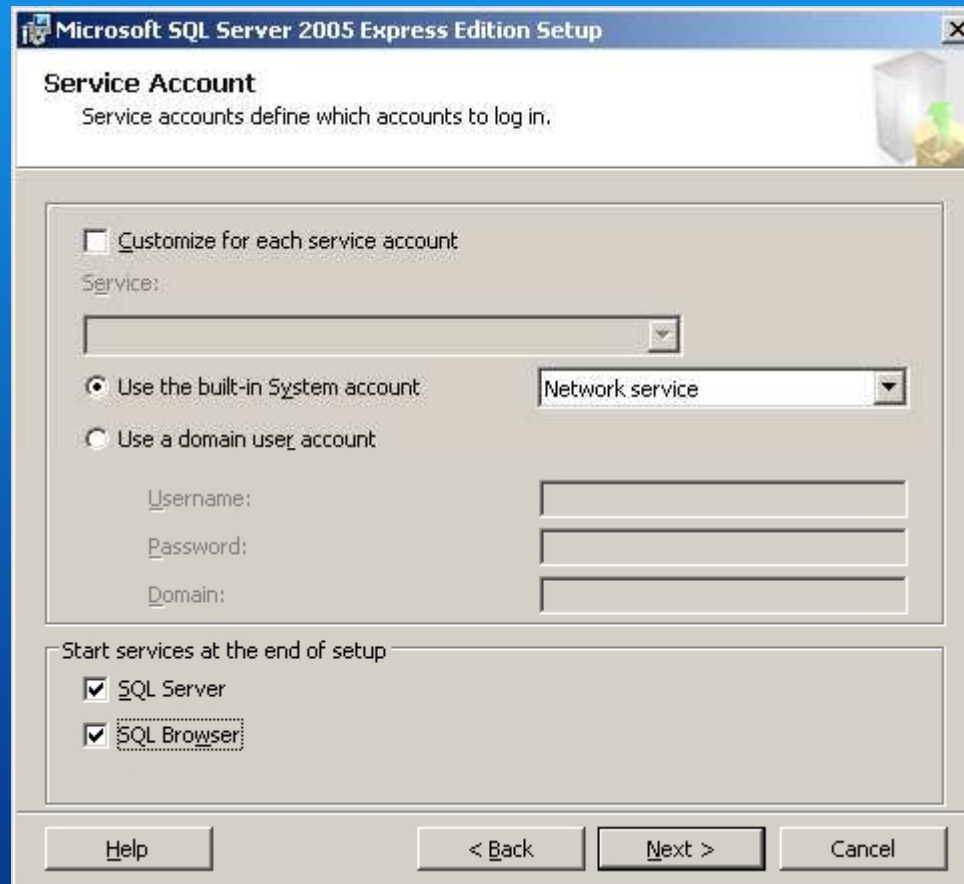

Confirm the installation features

Installation - Step 7

Select the option "Default instance"

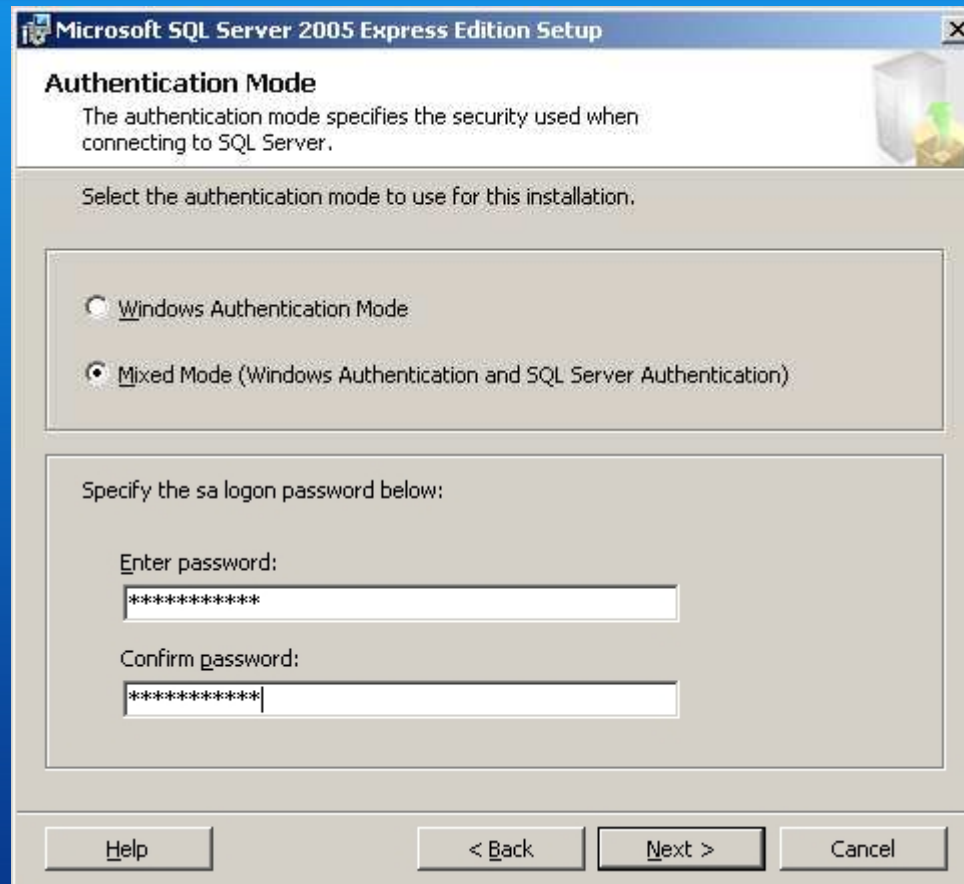

Installation - Step 8

The screenshot shows the 'Service Account' dialog box in the Microsoft SQL Server 2005 Express Edition Setup. The dialog has a title bar with the Microsoft logo and the text 'Microsoft SQL Server 2005 Express Edition Setup'. Below the title bar, the text 'Service Account' is displayed, followed by the instruction 'Service accounts define which accounts to log in.' and a small icon of a server. The main area contains a checkbox for 'Customize for each service account' which is unchecked. Below this is a 'Service:' dropdown menu. There are two radio button options: 'Use the built-in System account' (which is selected) and 'Use a domain user account'. To the right of the 'Use the built-in System account' option is a dropdown menu showing 'Network service'. Below these options are three text input fields labeled 'Username:', 'Password:', and 'Domain:'. At the bottom of the dialog, there is a section titled 'Start services at the end of setup' with two checked checkboxes: 'SQL Server' and 'SQL Browser'. At the very bottom of the dialog are four buttons: 'Help', '< Back', 'Next >', and 'Cancel'.

Choose "SQL Browser"

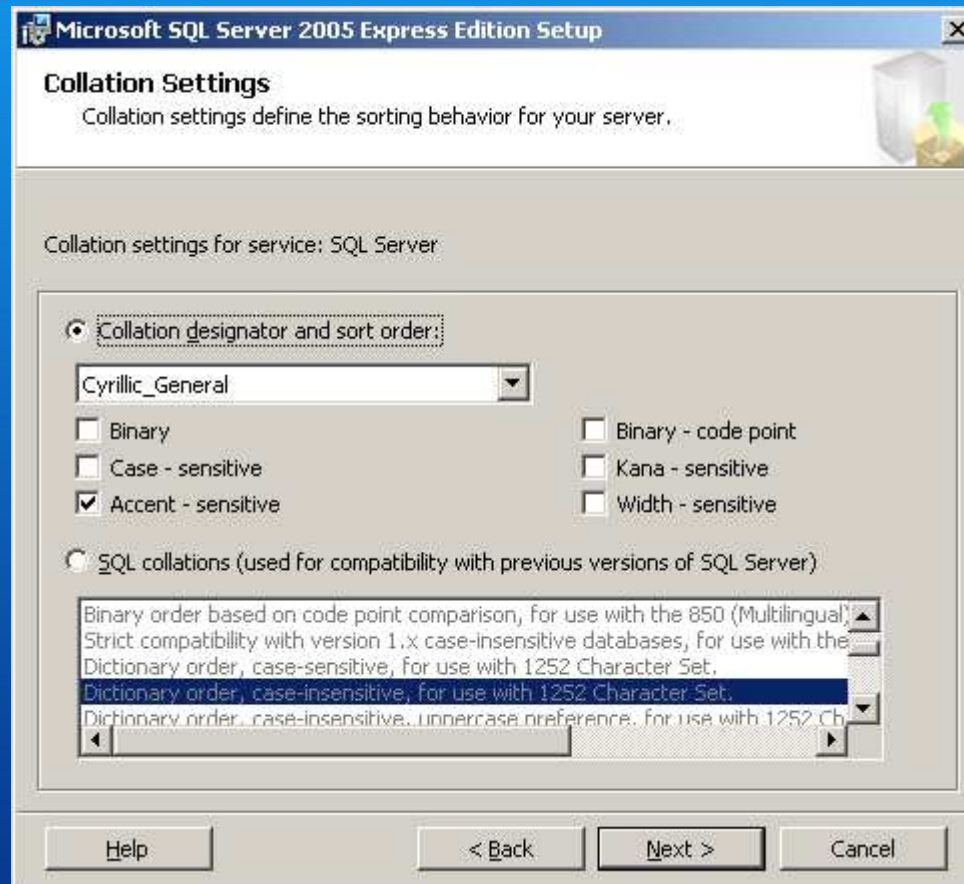

Installation - Step 9

The screenshot shows the 'Authentication Mode' step of the Microsoft SQL Server 2005 Express Edition Setup. The window title is 'Microsoft SQL Server 2005 Express Edition Setup'. The main heading is 'Authentication Mode', with a sub-explanation: 'The authentication mode specifies the security used when connecting to SQL Server.' Below this, it says 'Select the authentication mode to use for this installation.' There are two radio button options: 'Windows Authentication Mode' (unselected) and 'Mixed Mode (Windows Authentication and SQL Server Authentication)' (selected). Underneath, it says 'Specify the sa logon password below:' followed by two text boxes. The first is labeled 'Enter password:' and contains '*****'. The second is labeled 'Confirm password:' and also contains '*****'. At the bottom, there are four buttons: 'Help', '< Back', 'Next >', and 'Cancel'.

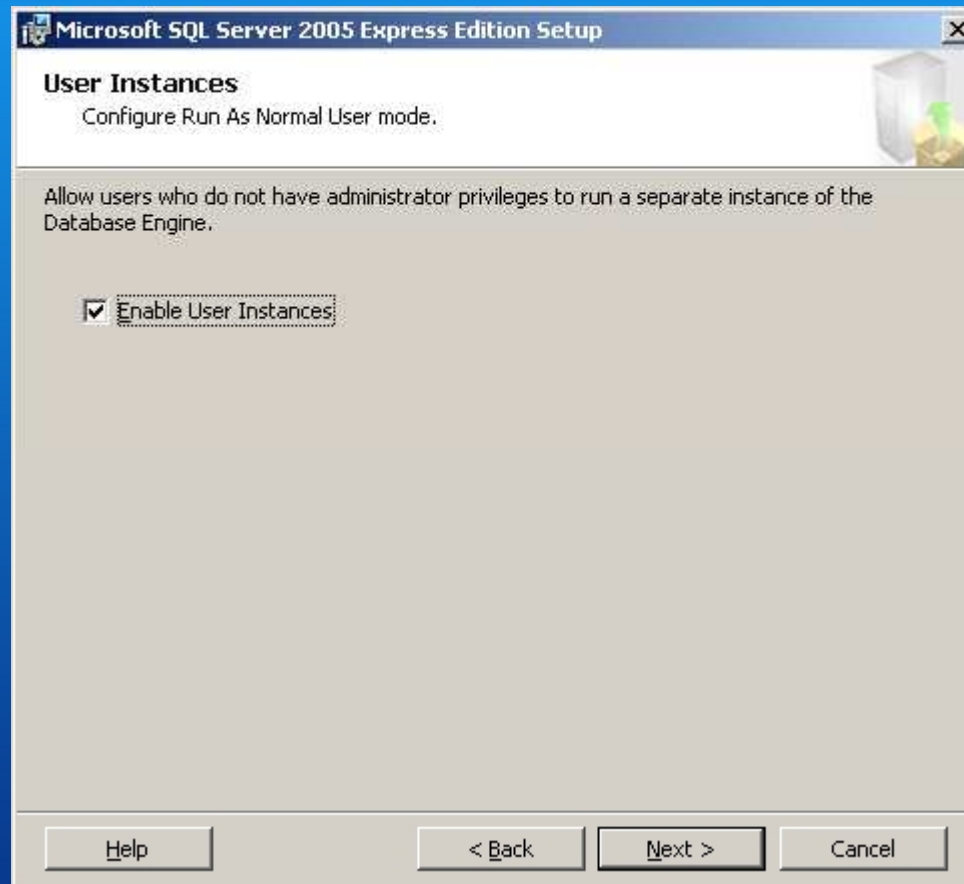

Selection of “Mixed Mode” and introducing the access password - passw0rd

Installation - Step 10

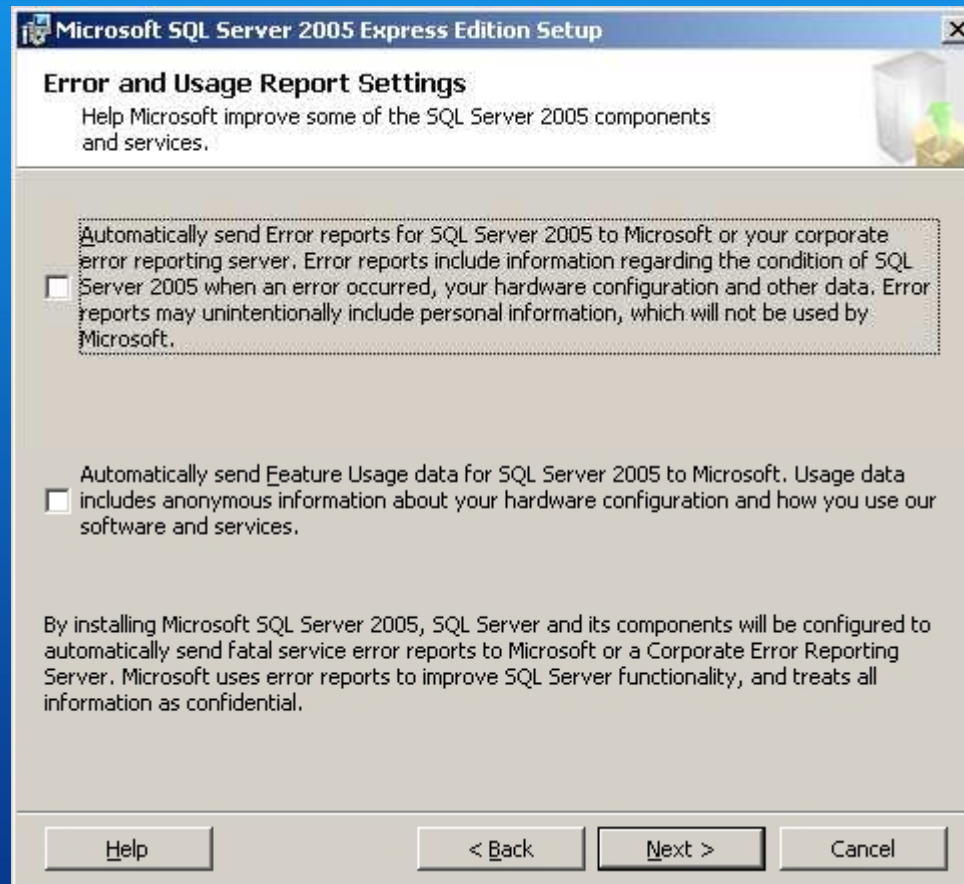

Check and confirm the regional settings of the server

Installation - Step 11
