

# PH Microinvest

## ● Who are we:

**Microinvest** - first software developer in Bulgaria was established in 1995. Indisputably, **Microinvest** is a leader on the Bulgarian software market and is gradually becoming one of the biggest international vendors for software automation solutions.

## ● Our Clients:

**Microinvest** has a huge variety of clients – ministries, enterprises, corporations with different spheres of activities, numerous small companies and private clients. More than 40 000 users in over 18 countries have experienced the supreme quality of the company's software solutions.

## ● Our Solutions:

**Microinvest** software solutions successfully automate many activities such as the monitoring and control of supplies, currencies, operations and documents. **Microinvest** offers its customers a modern solution for business optimization and efficiency improvement.

# **III Microinvest** *Facts and Figures*

- **Corporate offices** in Sofia, Varna, Bourgas, Veliko Tarnovo
  - Wide **distribution channel** with over **130** representatives in **65** cities in Bulgaria
  - More than **200 international representatives** in over **18 countries**
  - Certified **Microsoft Gold Partner** since 2009
- Awarded with **4 gold medals** for **innovative development** from Plovdiv International Fair
- Partner of **leading hardware manufacturers** (Datecs, Daisy Technology, Incotex, Posiflex, ELICOM, etc.)

# *Microinvest* Around the World

- **200 certified** and trained international representatives , with their number continuously growing;
- *Microinvest* software solutions are offered in **18 countries**. They are absolutely adapted to the country's specific legislation. These include Russia, USA, Romania, Turkey, Greece, Spain, Cyprus, Malta, Kenya, Kazakhstan, Armenia, Georgia, Belarus, Moldova, etc.
- *Microinvest* software products are translated into **13 languages**.
- Exports are estimated to constitute around 25% of company's total revenue.

# Our Main Principles

## ● User Friendly

Our products are user friendly and intuitive . The adaptation period is very quick, therefore our clients have competitive advantage.

## ● Innovation

Our products are being constantly advanced and updated in order to meet the standards and excel in the context of the rapidly developing sphere of technology.

## ● Integrity

We focus not just on results but on the way they are achieved. The relationships with our clients, vendors and partners are built upon mutual trust and respect.

## ● Flexibility

Our flexibility and ability to adapt quickly allow us to always be a step ahead. This is the reason why our products are continuously developed and improved in order to correspond to the clients' needs.

## ● Trust

**Microinvest** is a synonym for trust and confidence. Our clients and partners can always rely on us.

*Think global. Act local.*

● 95 employees

● More than 1500 commercial stores purchased our software in 2011

● More than 40 000 loyal clients

● More than 85 trainings and seminars in different countries

## *Product Portfolio – Wide Scope*

# Who Can Use Our Software Solutions *PII Microinvest*

## ● *Entertainment business*

- Billiards clubs
- Bowling clubs
- Night Clubs
- Casinos
- Entertainment places

## ● *Places of resort*

- Coffee shops
- Restaurants
- Canteens
- Confectionery
- Fast food restaurants
- Bars
- Pubs
- Pizza places

## ● *Commercial points of sale and stores*

- Fashion stores
- Shoe stores
- Perfumeries
- Malls
- Boutiques
- Children's stores
- Sports stores

## ● *Commercial outlets and Supermarkets*

- Supermarkets
- Pavilions
- Minimarkets
- Local stores

## ● *Helath and beauty*

- Beauty centers
- SPA centers
- Fitness centers
- Sports halls

## ● *Accounting*

- Accounting firms
- Auditing firms
- Financial companies
- Insurance companies
- Consulting agencies

## *Wide Service Spectrum*

### ● Professional Consultancy

Specially trained consultants integrate and configure the software systems for our clients.

### ● Reliable Maintenance

Professional and reliable maintenance through different channels of communication – telephone, e-mail, remote desktop service, corporate blog.

### ● Product Development

We continuously develop and update our software products in order to offer modern software solutions to our clients.

## *Microinvest Warehouse Pro Software Solutions – Opportunities and Advantages*

- **Easy configuration** for the right software solutions, conformable to the client's business model.
  - **Complex automation** for warehouse and accounting activities. Complete monitoring for all business processes and direct data exchange between sales and accounting software.
- **Technology from a new generation** – intuitive software and modern cutting-edge design.
  - **Software solution in line with the latest business trends** in order to achieve outstanding professional results.
- **Rich functionality**, superb quality and product prices without analogue on the Bulgarian software market.

# Microinvest Warehouse Pro

## Point of sale software from a new generation

- Completely integrated system for business management with different access levels and numerous users:

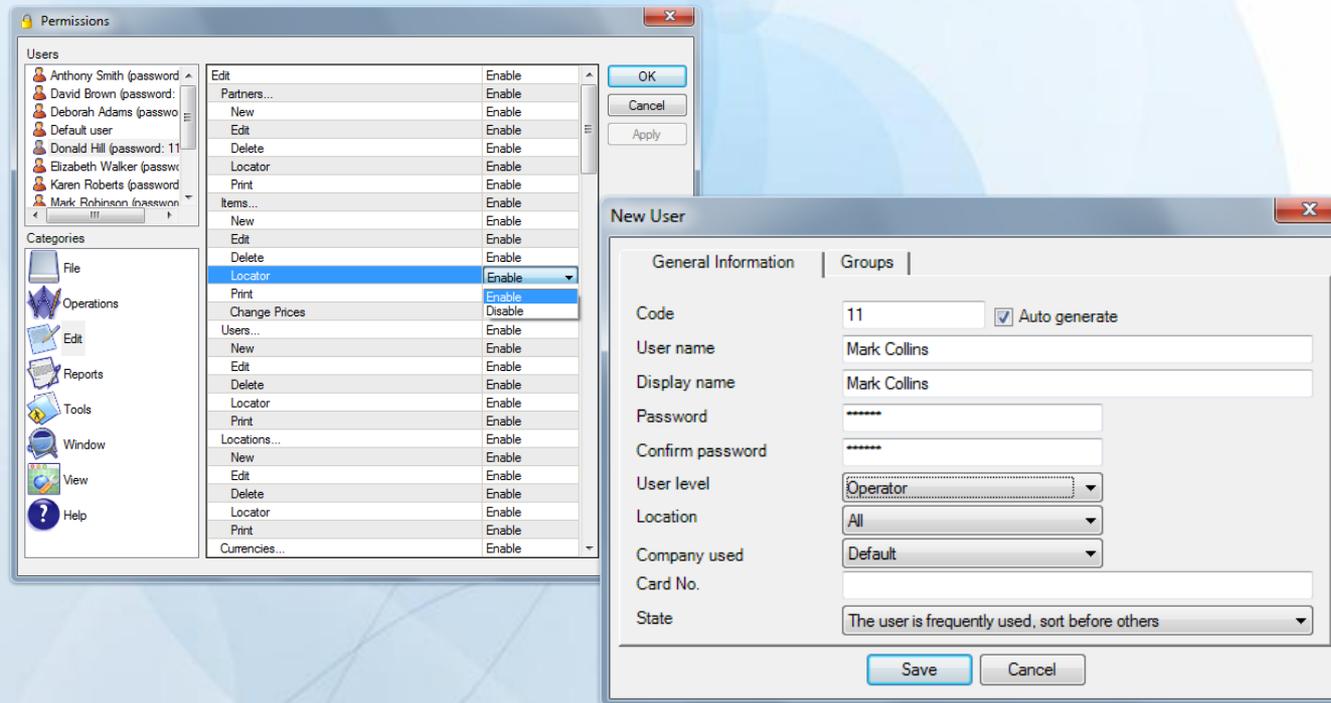

The screenshot displays the Microinvest Warehouse Pro software interface, showing several key modules:

- Sale:** A window showing a sale order for 'Sofa Central Warehouse'. It lists items such as 'A10-100 Wi-Fi USB Phone Works w/3Shape Verage More', 'Bluetooth GPS 16 Channel Receiver', and 'USB 2.0 to CSI Adapter Cable'. The total amount is 249.24 EUR, with VAT of 49.85 EUR, resulting in a final total of 299.09 EUR.
- Production:** A window showing production data for 'Shop Sofia 1'. It lists raw materials like 'Bread', 'Cheese', 'Ham', and 'Salad' with their respective quantities and prices. The total production amount is 11.33 EUR, with VAT of 2.27 EUR, resulting in a final total of 13.60 EUR.
- Requests:** A window showing a request order for 'ADC Telecommunications'. It lists items like 'Acer Aspire 3300-2.8GHz 256MB 160GB SATA', 'Electronics Da 8 Traveler Dvd', and 'Intel Pentium D Socket 775 Heat Sink and Fan Up-L'. The total amount is 2003.88 EUR, with VAT of 400.78 EUR, resulting in a final total of 2404.66 EUR.
- Purchase:** A window showing a purchase order for 'Caco Systems, Inc.'. It lists items like 'HP Debraided Pentium 4 2.8GHz 512MB 80GB DDR', 'HP Debraided Gateway D 2.8GHz 256MB 80GB DDR', and 'LG DL 16x4x8 DVD/VR/AMM USB 2.0/1394 FireWire'. The total amount is 4268.40 EUR, with VAT of 853.68 EUR, resulting in a final total of 5122.08 EUR.
- Cash Ledger:** A window showing a summary of cash transactions, including income and expenses, with columns for Date, Description, Location, Type, Income, and Expense.

- You can edit each operation:

The image displays two overlapping windows from the Microinvest Warehouse Pro software. The background window shows the main application interface with a menu bar (File, Operations, Edit, Reports, Tools, Window, View, Help) and a toolbar. The 'Edit' menu is open, showing options like Partners, Items, Users, Locations, Currencies, VAT groups, Payments, Documents, Reprint Documents, and Administration. The 'Documents' sub-menu is expanded, listing Sales, Purchases, Production, Transfer, Waste, Write-off, Refund, Notes, Consignments, Management, Stock-taking, and Merge Documents. The foreground window is titled 'Purchases' and shows an 'Edit purchase' form for invoice number N2000000012 dated 06.02.2012. It includes fields for Partner (Caco Systems, Inc.), Location (Sofia Central Warehouse), and Operator (Michelle Collins). A summary shows a SubTotal of 4268.40 EUR and a Total of 5122.08 EUR. Below this is a table of items with columns for No., Item, Measure, Quantity, Purchase price, Sale price, Discount, Currency, and Amount.
